

# Adult Education

## Parents Group

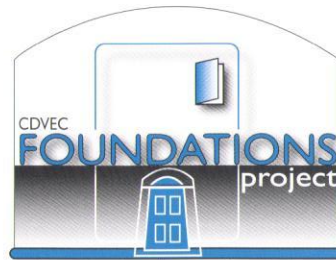

We run a parents group, with useful information around children's behaviour, parenting skills, health & nutrition, drugs awareness etc.

## Adult Education

Foundations Project also offers other adult education programmes for people using homeless services. These courses are based in 1 Parnell Square or on an outreach basis in hostels.

Courses include Computers, Photography, Health & Fitness, Literacy Support and Settlement Skills etc. Some are FETAC accredited. All courses are free.

We can also help you find suitable courses all around the city.

# Child & Family Programmes

Foundations Project is an education project for people who are homeless. Our Child and Family Services are for families who are homeless, but we also take referrals from social workers, teachers etc.

We provide after schools activities and education support to groups of children depending on age. These run throughout the week. We also provide One-2-One sessions for children who need extra support.

We run a four week summer project, with lots of excursions and also run other trips throughout the year.

**All our services are free, contact us to find out more!**

## *Book Club*

The project provides a Book Club where we loan books and games to children and families living in emergency accommodation.

## *One-2-One*

We provide a One-2-one service to children who need extra educational support or find it hard to manage in the group.

## *Schools*

We can help you if you are trying to find a school for your child. We also regularly meet with teachers and schools to help support your child's education.
